

Joshua Hunte is the Managing Director of the Platinum Systems Group of Companies Platinum Systems offers commercial and residential electrical contracting services. Solar Watt Systems is highly regarded and respected as one of the leading PV Installers of Photovoltaic Systems in Barbados and LED Illuminations which sells high quality LED bulbs throughout Barbados and the Caribbean Region.

Joshua Hunte is meticulous and methodical in his approach to his work and instead of being overwhelmed by the scope of his undertaking; he usually divides-it into manageable steps while making impressive in-roads towards bringing solutions to the energy needs of Barbados, and by extension to the Caribbean Region.

Mr. Hunte is a certified PV Installer having completed the following training in:

- i) PV Systems Operations and Maintenance
- ii) Residential-scale Battery-based PV System Design
- iii) Advanced Battery-based PV System & Maintenance
- iv) Performance Modeling and Operations & Maintenance.

Mr. Hunte's story is of someone who is very passionate about renewable energy! In 2017 he was nominated for the Regional Energy Personality Award and he has worked on several projects providing both electrical and renewable energy solutions to clients, locally and internationally.
