

## **Mr. Stephen Worme- Bio**

Well known in the local energy sector given his over thirty (30) years of experience Mr. Stephen Worme currently serves as General Manager of both **Williams Electrical & Williams Solar** a position which he took up in 2018. Since that time, he has been instrumental in guiding the company's photovoltaic installations.

Before taking up the post of General Manager at Williams Electrical & Williams Solar he served as the Chief Operating Officer at **the Barbados Light and Power Company** and also held other management positions there which included Chief Marketing Officer and Manager of Marketing and Corporate Communications. He was instrumental in the development of the pilot Renewable Energy Rider (RER) Programme which is largely regarded as the catalyst behind the growth of the renewable energy sector in Barbados.

Mr. Worme is a trained Electrical Engineer having received his Bachelor's Degree from the University of Western Ontario and a Master's in Business Administration from the University of the West Indies, Cave Hill Campus. Since being elected to the BREA Board of Directors he served in the capacity of Chairman of the Regulatory Committee which has responsibility for all regulatory related issues and as such as led formal intervention on behalf of the Association to the Barbados Electricity Panel and the Fair- Trading Commission. Mr. Stephen Worme is detail oriented professional with a knack for getting things done.
